CONTINUOUS RENAL REPLACEMENT THERAPY TUBING & ACCESSORIES

POSITIONABLE WITH MAINSTREAM CLINICAL EQUIPMENT

CRA

PRODUCT INFORMATION

APPLICABLE MODELS: RJZ

STERILE | EO

PRODUCT FEATURES

Multi-treatment Modality Options

- The CRRT treatment modalities used in CRRT lines cover CAVH, CVVH, CAVHD, CVVHD, CAVHDF, CVVHDF, SCUF and other c-ombined blood purification techniques.

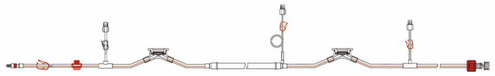
Good Pump Tube Performance

- The pump tube is made of high quality raw materials, good anti-fatigue characteristics and good stability.

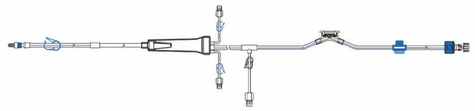
Flexible Options

- Suitable lines can be selected according to clinical requirements.

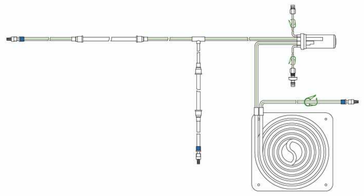
Arterial Blood Lines



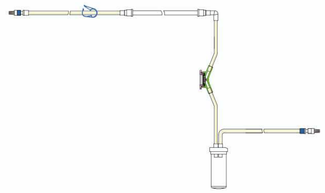
Intravenous Blood Lines



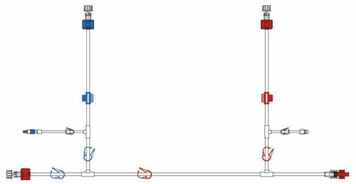
Replacement Fluid Lines



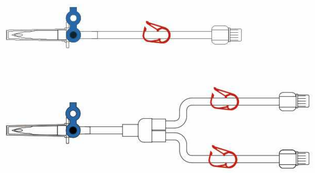
Filtrate Line



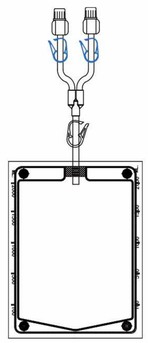
Haemoperfusion Connection Line



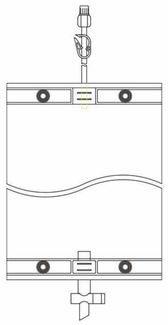
Spike



Pre-flush Fluid Collection Bag



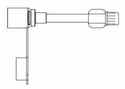
Ultra Filtration Collection Bag



Prefilled Fittings

Flush Connector

Dialyser Side Connectors

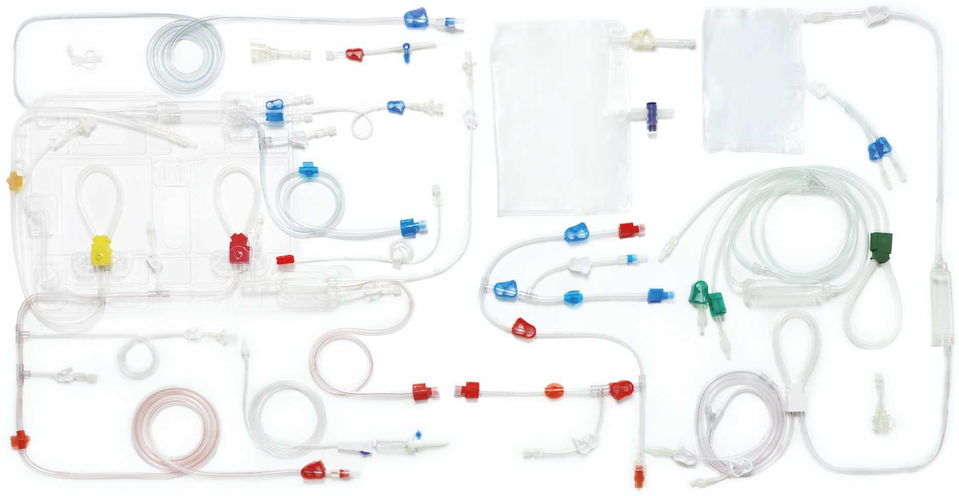


CRB

PRODUCT INFORMATION

APPLICABLE MODELS: FS

STERILE | EO



PRODUCT FEATURES

Good resistance to bending

- The unique four-hole connector design prevents the pipeline from bending and folding and improves the safety of treatment.

Multi-treatment Modality Options
